Filming with cBeebies at Marton Mere Holiday park

Nickelodeon X-Mas party

Google Part, Event City, London

Our credentials

Wonder Ice is owned and managed by Russian-born ice dancers, Alexei Kislitsyn and Natalia Pestova.

Here's what they say:

"We've travelled the world competing and performing as ice dancers, with shows taking us to Hong Kong, the Caribbean, Europe, the Lebanon and, of course, across the UK.

"With countless medals and trophies, we have a career's worth of dancing and choreographing ice shows, teaching and coaching experience'. On top of that, our TV credits include the Royal Variety Show, two seasons with John Barrowman in Robin Hood, ITV's Dancing on Ice and its Spanish equivalent, 'Desafio Bajo Cero'.

"Our clients are happy to work with professional skaters. They love the fact that this is a family company with values like openness, honesty and integrity. They get to know us and realise that we look after everything personally, from pricing and technical information to set up, installation and support.

"At Wonder Ice, we always aim to deliver the best quality product, and the best possible personal service. It's our motto!"

Talk to us about your idea and we'll help you make it reality... www.wonderice.co.uk

Welcome to Wonder Ice, the synthetic ice rink hire company.

We're Alexei and Natalia, professional ice skaters and the people behind Wonder Ice. With years of competitions, exhibitions, shows and TV appearances under our belts, you can be sure we know everything there is to do about skating and ice rinks.

Trust the professionals

We've tried many synthetic surfaces over the years and been less than impressed. But then we discovered SuperGlide. It's quite simply the best synthetic ice available. And that's why we use SuperGlide, and only SuperGlide, for all our rinks.

Why choose synthetic ice?

Thanks to temporary ice rink installations, you can now offer skating wherever you want, whenever you want it. It's great all year round entertainment. And synthetic ice is the environmentally friendly and cost-effective way of doing it.

At Wonder Ice, we provide rinks for any number of reasons and a wide range of clients. We cater for corporate events, public entertainment and private celebrations; birthdays and business launches, parties, weddings, funfairs, school classes, ice hockey games... you name it. The uses are limited only by your imagination.

But when you go for synthetic ice, there's only one real contender — SuperGlide. SuperGlide is the nearest alternative to a wet ice rink. It's also top quality, and the only synthetic ice endorsed by us as professional skaters.

Compared to real ice, SuperGlide synthetic ice has big benefits:

- no electricity or water to make ice
- no noisy generators
- no refrigeration plant
- no resurfacing equipment
- no big utility bills
- not weather dependent
- good indoors or out
- quick to install
- clean and safe
- easy to maintain
- custom packages available

We can install an ice rink anywhere there is a firm, flat surface. We've built them in shopping centres and town squares, schools, local councils, leisure centres, holiday parks, TV studios. And we've done it indoors and out.

Wonder Ice packages

Made for you

Each Wonder Ice rink is tailor-made for the occasion. You choose the size, the length of hire; whether to operate the rink yourself (once we've trained you) or have us run it for you; and we do the rest. We even offer semi-permanent installations. You'll find our rates very competitive and, as a rule, the longer the hire period, the cheaper the weekly rate. There are two basic options for hiring your rink:

1. Short or long term hire

The rink is operated and managed by our own trained staff for a completely hassle-free event. The package includes:

- SuperGlide rink
- Installation
- Barriers
- DBS checked staff including one first-aider
- High quality skates (child size 8 to adult 13)
- Dual blade skates for toddlers
- Penguin pal skating aid
- Disabled skate chair
- Skate distribution point and racks
- Skate change area with benches
- Skate maintenance equipment
- Full risk assessment (if required)
- Small music system (if required)
- Up to 8-hours skating per day
- Up to £10-million public liability insurance

2. Dry hire

We install the rink, provide the equipment and train your own people to operate it. You have full control of your event and retain all revenue from ticket sales — and any advertising if you sell barrier space to suppliers or local companies. The package includes:

- SuperGlide rink
- Installation
- Barriers
- High quality skates (child 8 up to adult 13)
- Dual blade skates for toddlers
- Penguin pal skating aid
- Skate racks
- Skate change benches
- Skate maintenance equipment
- Gliding spray unit
- Glide enhancer

- Full risk assessment (if required)
- Training for your staff
- Support during operational period
- **Note:** dry hire clients will require staff to run the rink, distribute skates and operate security on site when the rink is not being used. You must also arrange your own public liability and rink insurance
